DKRCM11C10

DKRCM11 is a radio board built using Trident IoT CM11 SoC. It is designed to be used with the DKR-HOST main board or embedded into your own host platform to develop your Zigbee Pro applications.

Features:

- T32CM11C10 SoC with 2M Flash, 208kB RAM
- 10dB max TX Power
- SMA antenna connector
- PCB Trace antenna
- QSPI 8Mb FLASH
- Dim: 54x32x18mm
